EDUCATION

- **Ph.D., Auburn University** Thesis Defense: July 2022
Field of Study: Stochastic Partial Differential Equations
Doctoral Advisor: [Dr. Le Chen](#)
- **M.S., University of Nevada, Las Vegas** Major: Applied Mathematics
GPA: 3.9
Jan 2015 - Aug 2018
- **B.S., University of Nevada, Las Vegas** Major: Applied Mathematics
GPA: 3.69
Aug 2011 - Dec 2015
- **Actuarial Exams**
- P, FM and MFE

EXPERIENCE

- **Auburn University Graduate Teaching Assistant** Aug 2021 - Aug 2022
- Head tutor at Auburn University's math tutoring center
- Instructed a course in Pre-Calculus
- **University of Nevada Las Vegas Graduate Assistant** Aug 2017 - Aug 2021
- Instructed courses in College Algebra and Pre-Calculus
- Led recitation sections in Calculus I and III, and Real Analysis
- Tutored students from all levels in a group setting

SKILLS

- **Python, Excel, Mathematica, R, GitHub and LaTeX**
- [Link](#) to GitHub page with several Python stochastic simulations
- **Spanish**
- I can speak and write at an intermediate level

ACADEMIC AWARDS

- **Auburn University Research and Citation Award** Fall 2021
An award presented by a committee of AU professors to a graduate student based on research
- **Bhatnagar Math Award** Dec 2015
A cash award presented by a committee of UNLV professors to a graduating undergraduate student based on math GPA

PUBLICATIONS AND CURRENT PROJECTS

- L. Chen and N. Eisenberg. Interpolating the Stochastic Heat and Wave Equations with Time-independent Noise: Solvability and Exact Asymptotics. Accepted to *Stochastics and Partial Differential Equations: Analysis and Computations*, preprint available at [arXiv:2108.11473](#), 41 pages, 2021.
- L. Chen and N. Eisenberg. Invariant measures for the stochastic heat equation on $\mathbb{R}^d$ without drift term. In preparation.
- L. Chen and N. Eisenberg. The interpolated stochastic heat and wave equation with super-linear drift term: solvability, regularity and moment bounds. In preparation.

TALKS

- Special session on Stochastic Analysis and Applications at the AMS Fall 2021
Southeastern Sectional meeting November 20, 2021
- Auburn University's Stochastic Seminar November 2, 2021
