SUMMARY

I am a PhD student at Auburn University studying Probability and Stochastic Partial Differential Equations under the supervision of [Dr. Le Chen](#). I have one publication in the journal *Stochastics and Partial Differential Equations: Analysis and Computations*, and I also have another paper with proven results that is now being formatted for submission. I am proficient in Excel and in Python which was used extensively throughout my PhD studies and I have also begun learning deep learning through self study.

EDUCATION

- **Ph.D., Auburn University** Thesis Defense: July 2022
Field of Study: Stochastic Partial Differential Equations
Doctoral Advisor: [Dr. Le Chen](#)
- **M.S., University of Nevada, Las Vegas** Jan 2015 - Aug 2018
Major: Applied Mathematics
GPA: 3.9
- **B.S., University of Nevada, Las Vegas** Aug 2011 - Dec 2015
Major: Applied Mathematics
GPA: 3.69

PUBLICATIONS AND CURRENT PROJECTS

- N. Eisenberg and L. Chen. [Interpolating the Stochastic Heat and Wave Equations with Time-independent Noise: Solvability and Exact Asymptotics](#) - *Stochastics and Partial Differential Equations: Analysis and Computations*
- N. Eisenberg and L. Chen. Invariant measures for the stochastic heat equation on $\mathbb{R}^d$ without drift term. Formatting for submission.
- N. Eisenberg and L. Chen. The interpolated stochastic heat and wave equation with super-linear drift term: solvability, regularity and moment bounds. In preparation.

SKILLS

- **Python, Mathematica, Excel, R, GitHub and LaTeX**
 - Proficient with the Python packages NumPy, math, pandas and matplotlib.pyplot.
- **Mathematical Statistics and Probability**
 - Have knowledge of Bayesian statistics, point estimation, hypothesis testing, stochastic processes and martingale theory.
- **Spanish**
 - Upper-intermediate level: speaking and writing.

CERTIFICATIONS

- **Actuary Exams**

- P (Probability), FM (Financial Math) and MFE (Models for Financial Economics)

TEACHING EXPERIENCE

* Instructor: Lectured, created and graded all exams

* GL = Only international students

* Recitation: Professor's assistant, gave weekly lectures, mentored students by appointment

- **Auburn University Graduate Teaching Assistant** Aug 2021 - Aug 2022

- Transferred to Auburn University by the invitation of my advisor, Dr. Le Chen

- Below is a list of my teaching assignments from AU

- Math 1120-GL : Pre-Calculus I (Instructor -in person - one section) Spring 2022
- Head Tutor at Auburn University's Math Tutoring Center Fall 2021
- Stat 3600 : Probability and Statistics (Recitation - in person - one section) Fall 2021

- **University of Nevada Las Vegas Graduate Assistant** Aug 2017 - Aug 2021

- Below is a list of my teaching assignments from UNLV

- Math 124 : College Algebra (Instructor - remote - one section) Summer 2021
- Math 458/658 : Intro to Real Analysis II (Recitation - remote - one section) Spring 2021
- Math 283 : Calculus III (Recitation - remote - one section) Spring 2021
- Math 181 : Calculus I (Recitation - remote - one section) Spring 2021
- Math 457/657 : Intro to Real Analysis I (Recitation - remote - two sections) Fall 2020
- Math 181 : Calculus I (Recitation - remote - two sections) Fall 2020
- Math 126 : Pre-Calculus I (Instructor - remote - one section) Summer 2020
- Math 124 : College Algebra (Instructor - in person - two sections) Spring 2020
- Math 124 : College Algebra (Instructor - in person - two sections) Fall 2019
- UNLV Math Tutor (in person) Spring 2019
- Math 124 : College Algebra (Instructor - in person - two sections) Fall 2018
- Math 126 : Pre-Calculus I (Instructor - in person - one section) Summer 2018
- Math 126 : Pre-Calculus I (Instructor - in person - two sections) Spring 2018
- UNLV Math Tutor (in person) Fall 2017

ACADEMIC AWARDS

- **Auburn University Research and Citation Award** Fall 2021

- Presented by a committee of AU professors to a graduate student based on research.

- **Bhatnagar Math Award** Dec 2015

- A cash award presented by a committee of UNLV professors to a graduating undergraduate student based on math GPA.

TALKS

- Auburn University's Graduate Seminar April 27, 2022
- Presented an "[Introduction to Stochastic Analysis](#)" to first year mathematics graduate students with the focus of introducing stochastic calculus.
- Special session on Stochastic Analysis and Applications at the AMS Fall 2021 Southeastern Sectional meeting November 20, 2021
- Invited to present some of my [thesis work](#).
- Auburn University's Stochastic Seminar November 2, 2021
- Presented some of my [thesis work](#) at the bimonthly Stochastic Seminar at AU.

HOBBIES AND OTHER INTERESTS

- Rock Climbing - Indoor and outdoor bouldering and sport climbing.
- Jazz Guitar - I really enjoy playing blues, bebop, bossa nova and funk.
- Cooking
